*Francesca Falcone*

*Fabio Imperato*

*Domenico Iuzzalino*

*Pierfrancesco Maggiora Vergano*

*Marianna Rasile*

Dear Colleague,

The current global scenario unfortunately has gone beyond all expectations and prevents us from holding the international Congress Endometriosis2020.

Since well known applied restrictions about traveling from foreign countries and limitations on public gatherings and social occasions, we first thought about re-scheduling the Congress in December 2020, but then, in the interest of safety, health and wellbeing of all participants, we decided to postpone the Congress to next year.

The new dates of the Congress are May 8th – 11th, 2021.

I am confident that in 2021 the world will be finally free from the virus and everyone will be able to travel again freely. I will keep you informed of any update.

Hope to meet you in Rome next year.

*Mario Malzoni*
